What Our Courageous Heart Alumni Say...

"This job will callus our heart, closing us off from the people closest to us and removing our compassion and humanity. This course allows us to remove that callus and learn how to thrive in a difficult world."

"I was at a point where I had become cynical at work, and would be bitter. I was also less compassionate with my spouse. I was reminded during this course to be more compassionate and I have found I have a clearer mind where I feel at ease."

"Your class really opened my eyes and gave me something to do to fix me. Since the class I have been meditating faithfully, I'm half way through the book you gave us, I have started setting intentions every morning, and reflecting at night. I feel so much better and I'm only a month into this. My blood pressure is down and I have only taken a sleep aid twice in the last month. I feel more energized at work and I am a firm believer in what I'm practicing. I just wanted to reach out to you and say thanks and to let you know that you helped me tremendously. I would love to help out in any way I can at any future classes."

"I am not an emotional, affectionate, compassionate person. But I am leaving here knowing that it's ok to be, and realizing it isn't hard to do."

"Critical incident / divorced / life was becoming more and more negative, and without looking in the mirror and deciding to make a change who knows where I would be. Officer wellness is something that needs to be given the time and resources or you fail the officer."

"Took a walk after day two of the training and applied the breathing techniques I learned in training. I take a walk every night and my mind is always racing. The controlled breathing put my mind at ease, I was focused and had the most peaceful walk then I can remember."

"Began the week with tension knots in my shoulders. After the breathing exercises they were gone. I hope to continue the exercises and lose the tension for good."

"This was an amazing experience that is an absolute must for law enforcement officers, supervisors, and command staff. This will effect positive change in law enforcement allowing us to be the utmost leaders in our community, using compassion for ourselves and others."
